15th Annual East Maui Taro Festival

Hana, Maui 2007

The first-born son of Wakea was of premature birth (Keiki alualu) and was given the name of Haloa-naka. The little thing died, however, and its body was buried in the ground at one end of the house. After a while, from the child's body, shot up a taro plant, the leaf of which was named Laukapalili, quivering leaf; but the stem was given the name Haloa. After that, another child was born to them whom they called Haloa, from the stalk of the taro, He is the progenitor of all the peoples of the earth.

Hawaiian Antiquities, David Malo
